Five races - Five tracks! The CRL attracts a good mix of competition from the beginner to the pro. We race once a month, at a different location for points. The competition at the CRL is a step up from local club racing and a step under the larger, more expensive national events. Who will be this year's champion?

Race #1	October 22	Halo Hobbies (79 entries)	Toledo, OH
Race #2	November 12	Halo Hobbies (80 entries)	Toledo, OH
Race #3	December 10	Larry's Performance R/C (56 entries)	Sterling Heights, MI
Race #4	January 21	Summit Raceway	Ft. Wayne, IN
Race #5	February 25	CEFX Raceway	Westland, MI
Fun Run	March 11	At track with the largest 2005/06 series attendance	

Series Format: Season-end points trophies will be awarded based on 3 of the 5 events. Your lowest two scores will be thrown-out to keep the competition as close as possible. Classes with less than 10 racers may be eligible for only one championship trophy.

Points Calculation: Main event points will begin with 100 for the winner of the "A" main and drop by an increment of one through the rest of the field (i.e. winner of "B" gets 90). TQ will receive 2 bonus points. A DQ for any reason will result in zero points (see rules sheet). End of season tie break will be determined by adding the total laps and time from the main events for each racer's top 3 races. Most laps in the least amount of time wins the tie break.

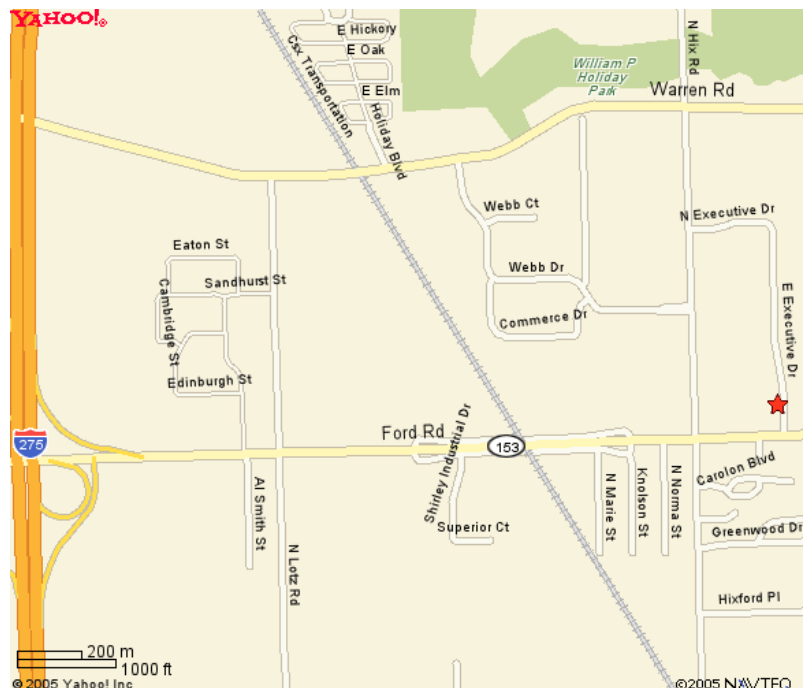

Race Day Format: Three rounds of IFMAR qualifying. Ranking for mains set on fastest qualifying run. Mains for all participants. Ten cars in all mains possible. The lowest main may have one or a handful of cars and will be allowed to race. Race-day prizes will be awarded through random raffle (one ticket per class entered).
